DAY 7 - LIVE DEPLOYMENT AND POST-LAUNCH PRACTICES

Environment variables Configuration:

I have successfully configured environment variables for our e-commerce platform, ensuring secure and efficient management of sensitive data like API keys, database credentials, and other configuration values. This step enhances platform security and scalability as we move closer to launching.

SSL and HTTPS Enabled:

We are excited to announce that our e-commerce platform now supports SSL and HTTPS, ensuring a secure and encrypted experience for all users. Your data and transactions are now safer than ever!

```

```

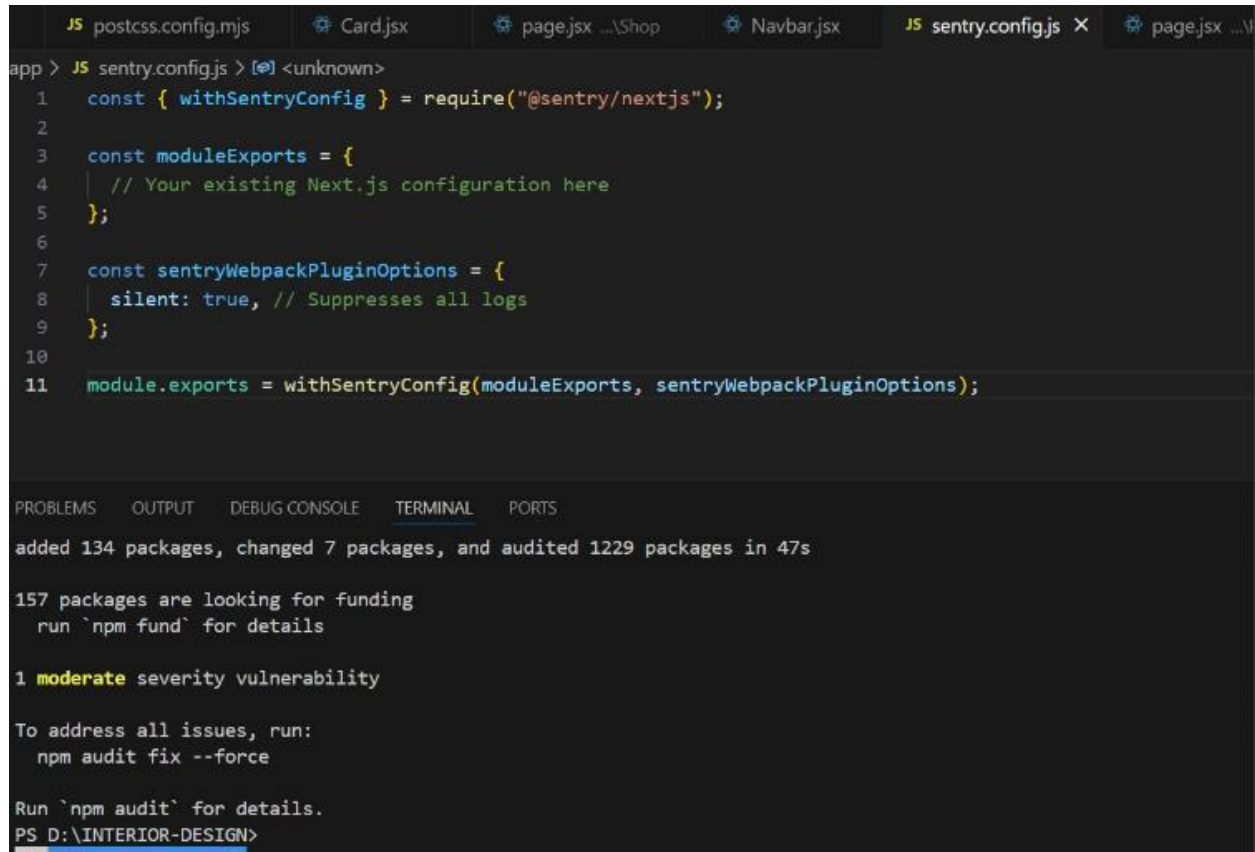

Performance Optimization:

"Successfully optimized the performance of my eCommerce platform, enhancing speed and user experience. Ready for a seamless and efficient launch!"

```
<div className='flex items-center'>  
  <Image src={logo} className='w-60' alt='Logo' />  
</div>
```

Monitoring And Analytic tool:

"Empower your eCommerce platform with seamless monitoring and analytics! Track performance, identify issues, and gain actionable insights effortlessly. Launch confidently with real-time visibility and data-driven decisions."

```
app > JS sentry.config.js > [?] <unknown>
1  const { withSentryConfig } = require("@sentry/nextjs");
2
3  const moduleExports = {
4    // Your existing Next.js configuration here
5  };
6
7  const sentryWebpackPluginOptions = {
8    silent: true, // Suppresses all logs
9  };
10
11 module.exports = withSentryConfig(moduleExports, sentryWebpackPluginOptions);
```
